### New York Stock Market

New York, August 11.—Some of the improvement manifested by the stock market yesterday was lost in the course of to-day's operations, the list showing a heavy or irregular tendency throughout. It was hardly to be expected that the outburst which characterised the preceding day's buying movement would continue without some renewal of activity for the short account, as well as by further liquidation on the part of shareholders, who for one reason or another see fit to regard the immediate future with some misgivings. In the alternate declines and ralles which marked the day it was clear that some sort of a conflict was in process, that the market had become what is technically known as "two sided. It seemed to have developed into a purely professional affair, in which an upward or downward movement was equally probable, according to the viewpoint of the operator.

One of the most disconcerting features.

One of the most disconcerting features of the existing situation is that it has produced very little new business. This is not altogether surprising, however, insumuch as some of the more conservative commission houses have openly discouraged in estment buying at this time, on the ground that conditions continue unsatisafetory, where they are not absolutely uncertain. Even the speculative brokerage firms declare that very slight marginal trading from outside sources has followed the decline, which is cited as additional proof that not only was the professional element almost entirely concerned in the recent reaction, but in the partial recovery as well.

entirely concerned in the feecher reaction, but in the partial recovery as well.

The duliness which settled over today's market after the first few hours was strongly riminiscent of the earlier summer period, when complete stagnation ruled for days at a time and net results were utterly negligible. There was a difference, however, that each succeeding spell of inaction to-day was followed by a moderate selling movement in which early gains ore invariably lost.

Union Pacific was again the focus around which interest largely converged, and its erratio movements in dicated that it was still under the influence of liquidation as well as bear pressure. With United States Steel, which was relatively firm, it comprises the great bulk of the day's business. Reading was heavy, partly as a result of the decline in the Lehigh Valley, which made several ineffectual efforts to advance. The one marked feature of the final hour was an abruy to the decline in the Lehigh Valley, which made several ineffectual efforts to advance. The one marked feature of the final hour was an abruy to the decline in the Lehigh Valley, which made several ineffectual efforts to advance. The one marked feature of the final hour was an abruy to the decline in the Lehigh Valley, was heavy, with preponderance of net the copper shares. The closing was heavy, with preponderance of net the copper shares including Union Pacific, which again sold almost at its low price of the day.

An incident of sentimental value

Denses.

The bond market was steady, save for a sharp decline of 21-2 points in New York. New Haven and Hartford convertible 6's. Total sales, par value, amounted to \$1,645,060. United States government bonds were unchanged on call. Total sales for the day were 435,100 shares.

emeris to advance. The one marked feature of the final hour was an advantage of the final hour was the closing in the copper shares. The closing was heavy, with prenonderance of net forces including Union Pacific, which again sold almost at its low price of the day of the day.

An incident of sentimental value was the declaration of the usual dividend by Standard Oil. This is worthy of narration only because of the recent flurry in that stock and American Tobacco on the value, when the directors of the latter concern deemed it advisable to defer dividend action on the common stock.

Other news of the day embraced a meeting of the Union Pacific directors at which no action in the matter of electing Mr. Frick's successor was taken, the shading of rates on time money, due to recent stock liquidation, another advance in cotton and weakn-ss in the grain markets. Canadian pacifics annual statement showed in operating expenses. Louisville and Nashville for the year reported an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total in come, despite an increase of \$4,200,000 in total income, despite an increase of

## First

VIRGINIA TRUST COMPANY

undoubtedly makes a more satisfactory Executor than an individual. As a proof of the statement many prudent men and women in Virginia and North Carolina have, during the past twenty months, named this Company Executor in their wills. And they are worth up in the millions.

## Second

THE VIRGINIA TRUST COMPANY

by all odds makes a safer Trustee and Guardian than any friend you can appoint. Although the reasons are many, we recite but one, which is frequently overlooked, viz., this Company will not die-the individual may and perhaps will die before the trust is executed.

## Third

THE VIRGINIA TRUST COMPANY

will pay you 3 per cent. on an inactive account, subject to check. Please make a mental note of that

We desire every man and woman in Virginia to know and remember these three points about this Company's business.

DRY GOODS MARKET.

New York, August 15.—The cotton goods market rule quiet with prices showing a softening tendency. Yarns are easy and quiet. Men's wear is being ordered weil in some quarters, but not so well in other places. Silk goods are in better demand.

#### Water Supply Is Ample.

Water Supply Is Ample.

[Special to The Times-Dispatch.]

Woodstock, Va., August 15.—After a period of low water in the reservoirs, which supply Woodstock with water, the town is now in good condition, for the two reservoirs now hold about 300,000 gallons, with the supply increasing daily. The new mountain springs recently have been turned into the reservoirs, and the trouble that faced the City Fathers seems to be a thing of the past.

#### Rhondes-Price.

Rhoades—Price.
[Special to The Times-Dispatch.]
Fredericksburg, Va., August 15.—
Chas. Rhoades, son of O. L. Rhoades, of Spotsylvania county, and Miss Edith Price, daughter of Edward Price, of the same county, grew up in the same neighborhood not far from this city, but never met while they were residents of Spotsylvania county. Both went to Chicago to reside without the knowledge of each other, and met there incidentally. The fact that they were from Virginia and had many mutual acquaintances at their old home started a friendship which developed into a stronger tie, resulting in their being married recently in the Windy City.
